Volvo Excavators 54.5-56.2 t 435 hp

EC550E

Volvo Construction Equipment

Welcome to our world

Welcome to a world of industry leading machinery. A world where imagination, hard work and technological innovation will lead the way towards developing a future which is cleaner, smarter, and more connected. A world supported by the enduring values of the Volvo Group. A world of stability, sustainability and innovation. A world which we put our customers at the heart of.

Welcome to the world of Volvo Construction Equipment – we think you're going to like it here.

Working harder, working smarter

For over 180 years Volvo has been a pioneer in the design and manufacture of machines which set the standard for efficiency, performance and uptime. Across our range of excavators, wheel loaders and haulers, our reputation for engineering excellence is unrivalled, which means whatever your operation or application, we can provide a total fleet solution to help you succeed.

Building on our proud history, the Volvo Concept Lab continues to create cutting-edge ideas and innovative concepts, to ensure we offer customers machines which work harder and smarter long into the future.

Solutions for you

Our industry leading machines are just the start of your relationship with Volvo. As your partner, we have developed an extensive range of additional solutions to help you improve uptime, boost productivity and reduce costs.

Designed for your business

Structured across nine blocks, our portfolio of products and services are designed to complement your machine's performance and boost your profitability. Simply put, we offer some of the best guarantees, warranties and technological solutions in the industry today.

There when you need us

Whether you're buying new or used, our global network of dealers and technicians offer around-the-clock support, including machine monitoring and world-class parts availability. It's the basis of everything offered by Volvo Services, so you can be confident we've got you covered right from the start.

BUILDING TOMORROW

35% more productivity

Delivering the type of durability and performance more commonly expected from a 60-tonne crawler excavator, the Volvo EC550E truly punches above its weight.

Outstanding levels of power and productivity make this machine the perfect partner for mining, mass excavation and large infrastructure projects.

Dig more, lift more

Shorten cycle times in the EC550E which delivers the digging forces and lifting capacity more commonly found in a 60-tonne machine. With impressive engine power and reinforced digging equipment with large pin size, this is an excavator which is big on performance.

Heavy-duty undercarriage

Handle heavy loads in even the most challenging conditions thanks to the long, wide lower frame, and robust undercarriage, which provide superior levels of stability and durability. The high-grade 60 tonne caliber undercarriage is in a class of its own, featuring reinforced track link and pins as well as enlarged rollers and shafts.

Right-sized buckets

The EC550E is available with a range of optimum-sized heavy-duty rock buckets especially designed for use in abrasive conditions. The Volvo Tooth System makes easy work of teeth replacements thanks to its place, push and click functionality.

On-Board Weighing

Take control of your productivity and ensure you load the optimum amount of material with On-Board Weighing. The optional system provides real-time information to eliminate under and overloading of haul trucks. The system also records total tonnage for complete production management.

OPTIMAL PASS MATCHING

The Volvo EC550E Crawler Excavator will fill a Volvo 35-40T Articulated Hauler in just 4 to 6 buckets. The result is optimum pass-matching which delivers high-levels of production at a low cost per tonne.

Lower your cost per tonne

Reduce costs and boost profits with the EC550E. Features including the new electro-hydraulic system with Independent Metering Valve Technology, complemented by a suite of Volvo Services, all contribute towards the unrivalled levels of efficiency.

Unique Independent Metering Valve Technology

The latest pioneering innovation from Volvo, the next generation electro-hydraulic system with Independent Metering Valve Technology (IMVT) is the most high-performing hydraulic system in the industry. It provides significantly more precise control on the hydraulic system compared to a conventional system, contributing towards unrivalled levels of controllability and efficiency.

Get the most from your machine

While reliable and efficient machines of course play a vital role in reducing costs, enhancing safety and maximizing productivity, it is ultimately the performance of the operator that really makes the difference. We offer a wide range of training initiatives to help operators unlock the full capability of their Volvo excavator.

Connected to efficiency

Fuel is the industry's number one operational cost and Fuel Efficiency Reports help to identify areas where efficiency improvements can be made. If you need further support putting insight into action, your Volvo dealer is on hand to help you develop a plan to deliver long-term efficiency gains.

Optimize site efficiency

Using Volvo Site Simulation, your Volvo dealer can help you optimize site productivity and lower your total cost of ownership. Get recommendations on the best fleet configuration and site set-up to maximize efficiency and profitability.

22% MORE FUEL EFFICIENCY

Take fuel efficiency to the next level thanks to the next generation electro-hydraulic system with Independent Metering Valve Technology and optimization of the motor/hydraulic pump combination, which lowers engine rpm while optimizing power. The result is a fuel efficiency improvement of up to 22%.

For your comfort and safety

Welcome to the ultimate in operator convenience. Whether working inside or on the machine you can be sure of the highest levels comfort and safety in every design detail of the EC550E, with features such as unrivalled visibility, reduced bouncing, motion priority functions and easy access to service points.

See it all

Operators benefit from outstanding visibility thanks to rear and side-view cameras. Furthermore, the optional Volvo Smart View uses front, rear and side cameras to provide a real-time, overhead view of the machine, resulting in safer machine rotation while working, especially in confined spaces.

Adapt to the job

Operators can easily select and adjust a number of functions depending on personal preferences and the task at hand, including Boom/Swing and Boom/Travel priority which enables prioritization of one function over another. Operators can also easily adjust the boom down speed, ideal for precision tasks which require optimum control.

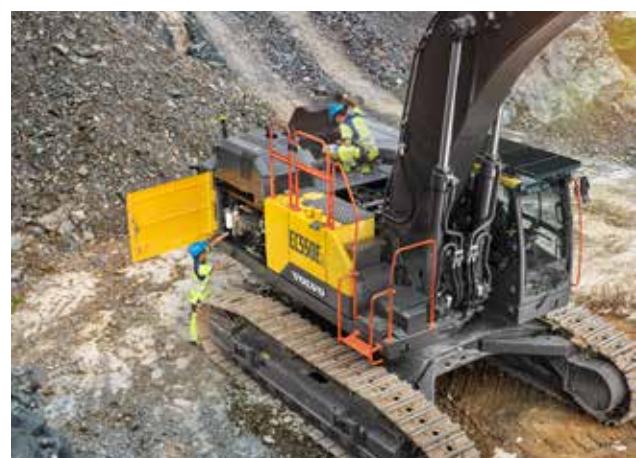

A smoother shift

Boom and arm bouncing reduction technology dramatically reduces machine shock, resulting in a more comfortable and productive operator performance.

Straightforward servicing

Grouped filters accessible from the ground level make servicing quick and easy, while the 3-point right-hand access ensures the upper structure can be accessed with confidence when needed. Industry renowned features such as bolted anti-slip plates, high visibility guardrails and handrails and large walkways further ensure the highest levels of safety when servicing the machine.

INDUSTRY- REOWNED CAB

Step inside the best cab on the market. The ROPS cab exceeds industry standards for this class of machine, and with low noise and low vibration, operators will experience the ultimate in comfort. Already boasting best-in-class visibility, the optional high visibility cab and one-piece front window enhance visibility even more.

Work harder for longer

Machine features such as a high-performance fuel filtration system, engine protection and telematics connection, combined with the back-up and support of your Volvo dealer, mean that you can count on the EC550E to be available when you need it.

High-performance filtration

The EC550E can be fitted with a high-performance fuel filtration system which delivers 99.7% water separation efficiency consistently over the full service life.

Engine protection

Keep your turbocharger working in top condition for longer with the optional delayed engine shutdown. To avoid overheating, the intelligent function turns the machine off when the turbo charger has cooled down to the appropriate temperature – and can be set to activate automatically by the operator.

Keeping you moving

Maintain productivity and machine uptime with our range of widely available, tested and approved Genuine Volvo Parts – all backed by Volvo warranty. Your Volvo dealer can help you stay on track, offering flexible maintenance and repair options, as well as planned servicing, to extend the life of your excavator.

MACHINE MONITORING MADE EASY

Maximize machine uptime and reduce repair costs with the CareTrack telematic system. Choose to keep track of your machine yourself or let us take care of it with ActiveCare. Our Volvo Uptime Center will provide 24/7 machine monitoring, supplying weekly reports and notifying you should preventive maintenance action be required.

Move more for less

Big on efficiency

- +22% fuel efficiency thanks to the electro-hydraulic system with Independent Metering Valve Technology and optimization of the motor/hydraulic pump combination
- Operator training: unlock the full capability of your Volvo machine
- Fuel Efficiency Report
- Volvo Site Simulation: optimize site efficiency

Ultimate control and comfort

- Boom/Swing and Boom/Travel priority
- Adjustable boom down speed
- Boom and arm bouncing reduction
- ROPS cab: spacious, ergonomic and low-noise
- Rear and side cameras, Optional Volvo Smart View
- High-visibility cab, One-piece front window (Option)

Get around safely

- Bolted anti-slip plates
- Large walkways
- High visibility handrails and guardrails
- 3-point right-hand side access to the upper structure
- Grouped filters, accessed from ground-level or side walkway

Work harder for longer

- Delayed engine shutdown (Option)
- High performance fuel filtration system (Option)
- CareTrack telematics system
- ActiveCare: 24/7 machine monitoring, weekly reports
- Genuine Volvo Parts

35% more productivity

- Optimal match to 35-40t Volvo Articulated Haulers
- Optimum-sized heavy-duty rock buckets – complete with easily replaced teeth
- Digging forces and lifting capacity commonly found in a 60-tonne machine
- 60t-calibre, large-size undercarriage: superior stability and durability
- On-Board Weighing system (Option)

Volvo EC550E in detail

Engine

The Volvo diesel engine uses Volvo Advanced Combustion Technology (V-ACT) to deliver lower emissions, superior performance and fuel efficiency. The engine uses precise, highpressure fuel injectors, turbo charger and intercooler, and electronic engine controls to optimize machine performance.

Air Filter: 3-stage and precleaner

Automatic Idling System: Reduces engine speed to idle when the levers and pedals are not activated resulting in less fuel consumption and low cab noise levels.

Engine	Volvo	D13E
Max power at	r/min	1 600
Net, ISO 9249/SAE J1349	kW	319
	hp	434
Gross, ISO 14396/SAE J1995	kW	320
	hp	435
Max torque	Nm	2 071
at engine speed	r/min	1 350
No. of cylinders		6
Displacement	l	12.8
Bore	mm	131
Stroke	mm	158

Electrical System

High-capacity electrical system that is well protected. Waterproof double-lock harness plugs are used to secure corrosion-free connections. The main relays and solenoid valves are shielded to prevent damage. The master switch is standard.

Voltage	V	24
Batteries	V	2 x 12
Battery capacity	Ah	200
Alternator	V/A	28/80

Undercarriage

The undercarriage has a robust X-shaped frame. Greased and sealed track chains are standard.

Track shoes		51
Link pitch	mm	229
Shoe width, triple grouser	mm	600 / 750 / 900
Shoe width, double grouser	mm	600
Bottom rollers		18
Top rollers		6

Cab

The operator's cab has easy access via a wide door opening. The cab is supported on hydraulic dampening mounts to reduce shock and vibration levels. These along with sound absorbing lining provide low noise levels. The cab has excellent all-round visibility. The front windshield can easily slide up into the ceiling, and the lower front glass can be removed and stored in the side door.

Integrated air-conditioning and heating system: the pressurized and filtered cab air is supplied by an automatically-controlled fan. The air is distributed throughout the cab from 14 vents.

Ergonomic operator's seat: the adjustable seat and joystick console move independently to accommodate the operator. The seat has nine different adjustments plus a seat belt for the operator's comfort and safety. Refrigerant of the type R134a is used when this machine is equipped with air conditioning. Contains fluorinated greenhouse gas R134a, Global Warming Potential 1.430 t CO₂-eq.

Swing System

The swing system uses an axial piston motors, driving a planetary gearbox for maximum torque. An automatic holding brake and anti-rebound valve are standard.

Max. slew speed	r/min	9.4
Max. slew torque	kNm	197

Travel System

Each track is powered by an automatic two-speed shift travel motor. The track brakes are multi-disc, spring-applied and hydraulic released. The travel motor, brake and planetary gears are well protected within the track frame.

Max. drawbar pull	kN	350
Max. travel speed (low)	km/h	3.5
Max. travel speed (high)	km/h	5.4
Gradeability	°	35

Sound Level

Sound level in cab according to ISO 6396

L _{pA}	dB	71
External sound level according to ISO 6395 and EU Noise Directive (2000/14/EC)		
L _{WA}	dB	107

Hydraulic System		
Main pump, Type: 2 x Variable displacement axial piston pumps

Please consult with your Volvo dealer for the proper match of buckets and attachments to suit the application.

The recommendations are given as a guide only, based on typical operation conditions.

Bucket capacity based on ISO 7451, heaped material with a 1:1 angle of repose.

Maximum material density

D: 2 100 kg/m³

C: 1 800 kg/m³

B: 1 500 kg/m³

A: 1 200 kg/m³

X : Not recommended

PASS MATCHING

For maximum production at lowest operating cost per ton Volvo recommends that loading and hauling machines be matched to achieve optimal performance.

For typical applications EC550E can fill 35-40 ton payload Volvo Articulated Haulers with 4-6 buckets.

Configuration*

6,5m ME boom, 2,55m ME arm, 10600kg CWT

Material	Volvo Articulated Hauler					
	A25	A30	A35	A40	A45	A60

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Specifications

LIFTING CAPACITY EC550EL

Lifting capacity at the arm end without bucket.

For lifting capacity including bucket, simply subtract actual weight of the direct fit bucket or the bucket with quick coupler from the following values.

Notes: 1. Machine in "Fine Mode-F" (Power Boost) for lifting capacities. 2. The above loads are in compliance with SAE J1097 and ISO 10567 Hydraulic Excavator Lifting Capacity Standards. 3. Rated loads do not exceed 87% of hydraulic lifting capacity or 75% of tipping load. 4. Rated loads marked with an asterisk (*) are limited by hydraulic capacity rather than tipping load.

Equipment

STANDARD EQUIPMENT	
Engine	
Turbocharged, 4 stroke diesel engine with water cooling, direct injection and charged air cooler	
Air filter with indicator	
Air intake heater	
Oil bath pre-cleaner	
Fuel filter and combined water separator	
Fuel filler pump: 50 l/min, with automatic shut-off	
Delayed engine Shutdown	
Alternator, 80 A	
Electric / Electronic control system	
Advanced mode control system	
Self-diagnostic system	
Machine status indication	
Engine speed sensing power control	
Automatic idling system	
One-touch power boost	
Safety stop/start function	
Adjustable LCD color monitor	
Master electrical disconnect switch	
Engine restart prevention circuit	
High-capacity LED lights:	
Frame-mounted 2	
Boom-mounted 2	
Extra work lights, LED :	
- Cab-mounted 3	
- Boom-mounted 2	
- Counterweight-mounted 1	
Travel alarm	
Flashing beacon, LED	
Batteries, 2 x 12 V / 200 Ah	
Start motor, 24 V / 7 kW	
Frame	
3-point right-hand side access	
Tool storage area	
Service walk way, foldable	
Punched metal anti-slip plates	
Undercover, heavy-duty	
Full height, foldable handrail and guard rail	
Undercarriage	
Mechanically retractable width track gauge	
Undercover, heavy-duty	
Hydraulic track adjusters	
Greased and sealed track link	
Track Guard	
STANDARD EQUIPMENT	
Hydraulic System	
New electro-hydraulic system with IMVT	
2-pump flow bucket circuit	
Swing anti-rebound valves	
Multi-stage filtering system	
Cylinder cushioning	
Cylinder contamination seals	
Automatic two-speed travel motors	
Boom float function	
Hydraulic oil, longlife oil 68	
Automatic hydraulic oil warm-up	
Cab and interior	
ROPS (ISO12117-2) certified cab	
Silicon oil and rubber mounts with spring	
Travel pedals and hand levers	
Adjustable operator seat and joystick control console	
Control joysticks with 3 switches and 1 proportional	
Heater & air-conditioner, automatic	
Flexible antenna	
Radio with MP3 & USB Jack with bluetooth	
Hydraulic safety lock lever	
Cab, all-weather sound suppressed, includes:	
- Cup holders	
- Door locks	
- Tinted glass	
- Floor mat	
- Horn	
- Large storage area	
- Pull-up type front window	
- Removable lower windshield	
- Seat belt	
- Safety glass	
- Sun screens, front, roof, rear	
- Rain shield	
- Windshield wiper with intermittent feature	
- Rear view camera	
- Master key	
Track shoes	
600 mm with triple grousers	
Digging equipment	
Boom: 6.5 m ME	
Arm: 2.55 m	
Manual centralized lubrication	
Service	
Tool kit, full scale	
Carettrack	

Equipment

OPTIONAL EQUIPMENT

Engine

- Cyclone pre-cleaner
- Diesel coolant heater, 10 kW
- Block heater: 120 V, 240 V
- Water separator with heater
- Auto engine shutdown
- Reversible fan drive
- Fuel tank-fast fuel fill preparation

Electric

- Anti-theft system
- Green light beacon
- Jump start connector, NATO
- Dig Assist : 2D, In-Field Design and 3D
- On-Board Weighing
- Volvo Smart View

Frame

- Hydraulic removable counterweight
- Cab entrance, foldable
- Side impact protection

Undercarriage

- Full track guard

Hydraulic System

- Hammer & shear:

 - Work tool management system
(up to 32 programmable memories)
 - Hammer & shear, 1 and 2 pump flow
 - Variable flow and pressure pre-setting
 - Additional return filter

- Slope & rotator
- Grapple
- Oil leak (drain) line
- Boom float function
- Hose rupture valve: Boom, Arm
- Overload warning device
- Quick coupler piping
- Hydraulic oil, biodegradable 46
- Hydraulic oil, longlife oil 32
- Hydraulic oil, longlife oil 46

OPTIONAL EQUIPMENT

Cab and interior

- Fabric seat with heater
- Fabric seat with heater and air suspension
- Fabric seat with heater, air suspension and 3P belt
- Delux seat with multiple adjusting arm rest
- Heater & air-conditioner, automatic with HEPA filter
- Joystick pattern change
- Comfort Driving Control
- Creep travel speed
- Opening top hatch
- Falling object guard (FOG) :

 - Frame-mounted
 - Cab-mounted

Cab-mounted falling object protective structure (FOPS)

Smoker kit (ashtray and lighter)

Safety net for front window

Safety net for lower front window

Front Rain shield

Lower wiper with intermittent control

Side view camera

Anti-vandalism kit

Specific key

One piece front window

High visibility cab

Track shoes

Track shoes 600/750/900 mm with triple grousers

Track shoes 600 mm with double grousers

Digging equipment

Boom: 7.0 m

Arm: 2.55 m, 3.0m, 3.35m, 3.9 m

Linkage with lifting eye

Service

Tool kit, daily maintenance

Automatic lubrication system

SELECTION OF VOLVO OPTIONAL EQUIPMENT

Oil bath pre-cleaner

LED light packages

Reversible cooling fan

Protection packages

Custom-Built Attachments

One-piece front window

Not all products are available in all markets. Under our policy of continuous improvement, we reserve the right to change specifications and design without prior notice. The illustrations do not necessarily show the standard version of the machine.
